New Peace Stamps From South Africa

Three first day covers bearing the Union of South Africa Victory stamps, those overprinted SWA for South West Africa and Basutoland, have been forwarded to the office of LINN'S WEEKLY.

The Union of South Africa stamps in 1p, 2p and 3p values and in the usual se-tenant bilinguals, as well as the overprints for SWA previously were reported in these columns. All of these issues had their first day on December 3, 1945.

The covers are most attractive, each bearing six stamps. The cover from the Union was mailed at Port Elizabeth; that from SWA at Windhoek, and the latest arrival from Basutoland at Maseru. Each bears the registration mark of the respective city and a rubber stamped "First Day Cover" in the upper left hand corner.

We are indebted to Mr. S. L. Bayer of the Penny Black Stamp Company for sending the complete set along for our inspection and reporting.

The same stamps are also overprinted for Bechuanaland.

This shows an increase of \$437,982.95 in sales at the Agency for the calendar year 1945 as against those for the year 1944.

Illness Is Fatal To Louis W. McDanel Well Known Collector

Louis W. McDanel, aged 40, of Beaver Falls, Pa., well known stamp collector and semi-dealer and a former employee of the News Tribune of Beaver Falls, died January 15th after an illness of short duration.

Mac, as he was best known to the many stamp collectors in this section was one of the most regular of attendants at the various annual shows and meetings throughout Northwestern Ohio and in many other cities, he was usually accompanied by his good wife Fran who was no less popular than Mac, for she too was a good fellow well met and a host to everyone and her interest in stamps was no less than that of her husband who will be most missed in his home town where he had come to be looked upon as the leading light in Beaver Falls Philatelic circles.

Little that was done by this local club was without the guiding hand of Mac, altho his activity was apparent in most events, he never craved the spotlight.

It was at Beaver Falls, that the Visiting Firemen Organization had its birth. Mac was named first Fire Chief and carried out his duties in the formative stages in the organization in a manner unexcelled by any successor. Your editor was at this meeting where he became a character member of the V. F.

Details of this loss to Philately and to Beaver Falls comes from Clarence E. Bell of Beaver Falls, who is at present Fire Chief and we know that many other brothers will mourn this loss with us.

Death came to our good friend after a brief illness starting in December, after a brief hospitalization complications set in and after rapid development Mac's daughter was called home quickly from her school at Muskingum College and was at his bedside with her mother when the end came.

Funeral services were Thursday afternoon, Jan. 17, at the Luttoa Funeral home in Beaver Falls, where the Rev. M. S. Ashton of Christ Episcopal Church gave the sermon.

The December 13 editorial in this paper has brought forth many letters from stamp dealers and from others, just as we thought it would bring. At the time, we published it without much comment or opinion on our part, believing that our readers would take care of that.

We would be glad if we had room, to publish all the replies that have come as a result of this editorial but that is beyond our space limits. We do, however, want to publish one letter which seems to cover the entire matter better than any other we have received.

ceived and this letter is from a man who calls himself a small dealer. Small, in that he is a specialist in the stamps of South Africa and attempts to maintain a stock of these stamps with their numerous varieties.

We could do a lot of commenting on such dealers for we believe that there is a great future for dealers of this type.

Before printing the letter referred to above we want to cover one point and score against the collector who asks for approvals, which most of all who have written us have over looked.

Any collector who will write to as many as 24 dealers at one time and send an identical want list to the entire 24 dealers is wholly unjust to all of these dealers. It must be remembered that it takes time to check and fill want lists. If it should happen that all of these dealers would get at the want list and send this collector several of the stamps that he asks for that he would naturally buy from one of the dealers and return the stamps that came from the others. In this manner he has caused a lot of work and time for 23 dealers who in our estimation have been treated very unfairly. If the collector had in mind comparing prices and then buying from the cheapest, then as a dealer I would not want such a collector on my list. That man who pinches pennies for the cheapest priced stamps usually is a customer that is worth nothing to any dealer.

The problem as it was stated has many angles and there is as much on the side of the dealer as on the side of the applicant. These matters should be considered in the light of fairness to the dealer.

Personally, we have always found stamp dealers from whom we want to buy, to be very tolerant and friendly and helpful and men who seem to want to sell stamps.

When there is a report otherwise, we can not help but feel that there may be a reason behind the matter that has not been made apparent.

Now, let one of the dealers defend the dealer fraternity.

We quote the entire letter:

Dear Mr. Linn:
I have just been reading "A Horrible Indictment Of The Stamp Trade" in your December 13 issue. It is regrettable that your complainant did not include an exact facsimile of the letter he sent to the 24 stamp dealers requesting approvals, so that your readers could arrive at a more concise evaluation of the true merits of the case.

Let us assume for an instant that I, as a dealer, receive such a request from a collector from whom I have never previously had a letter. What is the first thought that comes to mind, especially if the request for approvals contains some high value items?

I will tell you. The question arises—Is this request from a serious collector who will either pay for the stamps submitted, or is it from some juvenile who does not have the ability to pay, or is it from some downright crook who is working a racket on dealers and has no intention of paying?

I have had some very sad experiences with all types. I know whereof I speak. Usually, the dealer does a little investigating before he answers that letter. My first procedure is to check the rosters of the A.P.S., S.P.A., etc. If I find the name of the letter writer listed there, I send the writer some stamps—perhaps not everything he has requested, but enough to build up an interest—a sort of "test" lot, as a starter; enough to establish credit rating.

If, on the other hand, I do not find that the letter-writer is a member of any of the stamp societies, I then check the lists of the Protective Bureau; and, if I find the name listed there, the writer, naturally, doesn't get even a postcard reply from me.

You must know, Mr. Linn, that there are actually thousands on the list of those who actually prey upon stamp dealers; and, no matter how careful the dealer may be, he cannot avoid getting stung now and then. Some individuals even go so far as to have important looking letterheads printed. Why, I had one a couple of years ago that had a fine letterhead, and with his first order to me, he sent a check (yes, it was good) for ten dollars. I sent him some 20 dollars' worth of stamps against his list, and back he came with a check for the balance, also another list—much larger than the first I filled his second order—and, never heard from him again, although I did read later—in Linn's, I think—that he had been picked up by the Postal authorities and was behind bars. But, the sad part of it is, he will be back with us again one of these days, under another name and a newer racket.

There is nothing in your complainant's letter to indicate that in the 24 letters he sent to stamp dealers that he made mention of references, or whether he is a member of one of the national stamp societies and, whether or not he made mention of that fact, I have my doubts on these points, because I do not believe that 21 out of 24 stamp dealers would ignore his letters if he had made any attempt to establish his reliability. His letterhead alone would not establish reliability.

I do not believe that any 21 out of 24 stamp dealers in this broad land of ours would ignore a letter such as is described, unless there were something "missing" or something about those requests to raise a doubt in their minds as to its reliability.

And, in addition, it is barely possible that your complainant may at some time have had some kind of an experience in connection with his dealings with some dealer that was not altogether satisfactory. There is that possibility that, even, as you say "he is one who has always had a good reputation as a collector," his name may have been reported by some dealer for "slow returns" or some minor detail. He may not even know that he is listed, if, by chance he is; but, if his name is "on the list," then it is indeed surprising that he received as many as three replies.

However, he reports that he received no stamps whatever, which immediately raises the question—Why? Stamp dealers are not ignoring chances to do business; that is, no 21 out of 24 are not—not, unless there is a reason somewhere. Why not dig a little deeper under the surface and find out that reason before you indict stamp dealers as a whole.

In the second part of your editorial, you take a gentle slam at the small stamp dealers who may not have sufficient capital to carry a comprehensive stock of the world's stamps.

There is much to be said on the other side of that question, too. Take, for instance, the small dealer who "specializes" in the stamps of certain countries. And, by "specializing," I mean, the dealer who is able to supply the varieties much sought after by collectors who in turn specialize in those countries.

What sort of service do you think "specialist" collectors can

als contains some high value items?

I will tell you. The question arises—Is this request from a serious collector who will either pay for the stamps submitted, or is it from some juvenile who does not have the ability to pay, or is it from some downright crook who is working a racket on dealers and has no intention of paying?

I have had some very sad experiences with all types. I know whereof I speak. Usually, the dealer does a little investigating before he answers that letter. My first procedure is to check the rosters of the A.P.S., S.P.A., etc. If I find the name of the letter writer listed there, I send the writer some stamps—perhaps not everything he has requested, but enough to build up an interest—a sort of "test" lot, as a starter; enough to establish credit rating.

If, on the other hand, I do not find that the letter-writer is a member of any of the stamp societies, I then check the lists of the Protective Bureau; and, if I find the name listed there, the writer, naturally, doesn't get even a postcard reply from me.

get from the large "stamp businesses"—the "giants" in the stamp business. Those dealers are just not equipped—nor, do they have any inclination to specialize in minor varieties. Their stocks are listed "according to Scott's catalog," and, for the most part, they stop right there.

I dislike to bring myself into this discussion; but I specialize in the stamps of the Union of South Africa, which, as you must know abounds with varieties.

You would be amazed if you knew the number of collectors in the U. S. who specialize in these issues—collectors who go after all the minor varieties. They could never hope to obtain these varieties from the "giants" because the "giants" are operating their businesses on a basis which would not permit the study necessary to enable them to check and recheck for these varieties.

For instance; let us consider the recent "Bantam" was issue of the Union. Of the one-half pence value alone, there are six distinct printings, each of a different shade ranging from pale green to dark blue green, each with different marginal colors, and wording, and each containing other plate varieties.

Only the small dealer who is interested enough himself (and, this is a one-man job; hired clerks can not be counted on to do it) to handle them can be looked to for such items.

Furthermore, it is part of the

James Kesterson, of Marietta, Ohio, reports the find of a 6c 1895 U. S. stamp which shows the "U" of the watermark with a complete stitch watermark running across the stamp and through the top of the letter "U". We do not remember of ever having heard of a similar watermark where the regular and a stitch has been combined.

UNCLE SAM, WORLD'S BIGGEST STAMP DEALER

The annual report of sales at the Philatelic Agency for the year 1945 as published elsewhere in this issue of the News is food for thought for every stamp collector and dealer. Personally, for reasons which would require considerable explanation and argument we have often advocated that the Agency be closed. Since it is operating, we feel that there are rules and regulations which should govern it and that those who support it should be given an even break. It is a fact, without question that there is tremendous speculation or rather investment in United States stamps, this investment being for speculation, so it is merely speculation, as much as investment. This investment is made through purchase of stamps at the Agency. A definite set of rules for sale of stamps at the agency would be of value to the man who spends his money either for stamps for his collection or for investment purpose. The value of any stamp is definitely based on the number issued. Thus the sooner a stamp is closed out at the agency, the sooner it begins to advance in price and that is to the interest of the collector as much as to the speculator or investor.

Geo. W. Linn

It would seem a sound policy that the agency should adopt a plan of sales which would in effect result in an announcement that when a new commemorative stamp is issued it will be kept on sale at the agency for a period of six months only, after date of issue, unless sold out before that time. If at the end of six months after issue the stamp is still in stock at the agency any remainder stock will be destroyed.

This would be to the advantage of both the collector and the investor, since it would definitely set a limit to the issue of any stamp. No one can argue that they had not time to buy the stamps if on sale for a period of six months.

In the case of regular issues, such as Presidential sets, Special Delivery, Airmail and the like, these stamps would be withdrawn from sale at the Agency six months after a change of issue and the new issue is on general sale.

Such a plan would definitely help to advance the value of the collectors stamps and would be of value also to the speculator and certainly this man must be recognized since the greater part of the money spent at the Agency is speculators coin.

Mr. Howard S. Baron of New York, propounds another question that curiously enough has never before been brought up with regard to stamps sold by the agency and which definitely makes the Philatelic Agency a Stamp Dealer just as any other stamp dealer is a stamp dealer.

We have no point against the sale of United States Stamps which are good for postage or some other use, but we do feel as does Mr. Baron that when the Philatelic Agency carries in stock and offers stamps which have no value of any nature in so far as use is concerned that they are placing themselves in competition with legitimate stamp dealers.

If the Agency were to offer the Spanish War Revenues of 1898, there would be a tremendous howl from dealers in all parts of the country.

Well, we see by the Agency lists that the 1944 and 1945 Duck stamps are being offered at \$1.00 each, yet try sticking one of these stamps on a duck hunters license and see what might happen to you.

These two stamps are of no cash value to anyone who buys them from the Agency, other than the value that is created by the hobby of stamp collecting.

Such items as these should not be offered in competition with legitimate stamp dealers. The stamps were originally on sale at most all post offices for several months following their issue. Every stamp collector who wanted one could have bought it for one dollar. The sooner they are removed from sale, just that much sooner will the specimens in the album of collectors begin to advance in value.

Let the Agency concentrate on current and useable stamps and not start into the stamp trade in competition with legitimate dealers.

AIR MAIL COVERS

 SAMUEL S. GOLDSTICKER, JR. (Dept. Ed.)
 450 Mt. Prospect Avenue, Newark 4, N. J.

Effective Monday, February 3, 1946, service will be resumed to Newark, New Jersey, by all airlines which operated from that airport prior to the War (American, Eastern, United, and TWA). At the same time, service will also be inaugurated by four new companies (National, Northeast, Northwest, and Pennsylvania-Central).

According to preliminary discussions on the part of the committee of the American Airmail Society, the following conclusions as to which covers should be official were tentatively drawn up:

AMERICAN AIRLINES: There are no new flights on the routes of this company (AM-7, AM-18, and AM-23) since all were previously flown.

EASTERN AIRLINES: Only possible flight which could be listed would be a nonstop Newark-Boston (AM-5 or AM-6) and this is still the subject of much controversy.

UNITED AIRLINES: No new flights on AM-1.

TWA: Likewise, no new flights on AM-2 or AM-44.

NATIONAL AIRLINES: The first southbound flight from Newark is listable, as are covers carried on the first flight into Newark (AM-31). Also, if any schedule serves both Newark and New York City, then the first

flight (in both directions) between Newark and New York are also listable.

NORTHEAST AIRLINES: The first flight from Boston to Newark and Newark to Boston (AM-27) should be listed.

NORTHWEST AIRLINES: The first flight (AM-69) from Newark to Detroit (or beyond) are listable. Also, if any flight serves both Newark and New York City, then the first flight between these two points will be listed.

PCA AIRLINES: AM-55 First flight Newark-Pittsburgh and Pittsburgh-Newark will be listed. Also, first flight between Newark and New York if it ever occurs.

At the present time, I am working on plans for a special cachet with city officials. However, please send all covers to the Postmaster in the customary manner. PLEASE DO NOT SEND ANY COVER TO ME TO SERVICE, as at the immediate time, I am not equipped to handle covers beyond these which I do now. I'm sorry since I would like to handle all of your covers, but it is just about an impossibility at this time.

In response to numerous requests, I am devoting my column this week to a revised listing of forthcoming first flights as authorized by the Civil Aeronautics Board. This list is as of January 1, 1946; and if any new authorizations are made between December 26th and the date you receive this, you will not find them listed here. "*" indicates the

flight is expected to take place sometime during January or February; while "*" means that city has never had any airmail service and therefore, there will probably be an official cachet at that point. I would appreciate it if you would call my attention to any omissions or errors which may have slipped into here.

KNOXVILLE COLLECTORS GET SPLENDID PUBLICITY

Few groups of stamp collectors have ever had such a splendid bit of publicity as is given the collectors of Knoxville, Tennessee, in the December 30 issue of the Knoxville News-Sentinel. Five full columns on the front page of the Magazine section of this newspaper together with four large illustrations should make stamp interest in Knoxville at fever heat for months to come.

The entire article is very well prepared and written and is unusually free from so many inaccuracies as are usually found in the ordinary newspaper stamp story. We congratulate the Knoxville Stamp Club on this feature.

STAMP COLLECTORS

I once thought stamp collectors were just a lot of cranks. I never did imagine That I would join their ranks, But here I am with microscope, And stamps of many lands Spread out before me, and my thoughts Drift off to foreign strands; And while they go roaming Along the distant shores, I seem to breathe rich, spicy airs And quite forget my chores.

PHILIPPINE POSTSCRAPARIUM

By Pablo M. Esperidion

Facts and figures are essential in philately. Fiction and fancies are perhaps their adversaries. Incidentally, facts and figures vs. fiction and fancies appear at present as the moot question on the border of Philippine philately and the Jap occupation issues, as for instance—Statistics Committee Starts Shooting

Urged by the motive of looking into the facts and figures of the Jap occupation issue, the Philippine Philatelic Club has created recently, a Statistics Committee "to compile for future reference of its members and collectors at large the facts pertaining to the quantity issued of each of the Occupation stamps, "according to the October issue of the PPC NEWS, official organ of the Philippine Philatelic Club. The difficulty of the task is the fact records were apparently lost in the fire during the liberation, the Statistics Committee pointed out. However, the findings of the committee will unveil controversial points regarding the quantities of the Jap occupation issues, Severino N. Luna, chairman of the Statistics Committee declared. In a letter to the Director of Posts, the committee laid its problems of records reconstruction, to which the Director of Posts promised his cooperation on the matter, Luna further declared.

Roll On vs. Hold It

Demonstrating his cooperative attitude on the task of the Statistics Committee, Director of Posts Felipe Cuaderno, in a letter dated October 27, 1945, wrote to Severino N. Luna, chairman of subject committee, text of which is quoted below in verbatim:

"I wish to acknowledge receipt of your letter of the 12th instant, enclosing a list of postage stamps used during enemy occupation and the probable quantities of issues determined by your committee.

"All the records of the Postal Service having been destroyed thru war operations, this office cannot furnish any information on the subject except that the chief of our Stamps Section could remember from memory which are indicated by pencil notations on the margin of the list you submitted.

"To obtain better results from your inquiry, I wish to suggest that you also consult members of the other philatelic clubs and prominent collectors and stamp dealers on this matter and compare figures."

Figures vs. Fancies

Appended to the above letter of Director of Posts Felipe Cuaderno, the list mentioned therein giving the total quantities of the Jap occupation issues as explained in subject letter is reproduced hereunder:

OUTSTANDING COLLECTION WANTED

I am in the market to buy collections and during the next 90 days I would like to spend \$25,000.00 or more for fine properties.

For more than a dozen years, I have been a large buyer of collections and stocks and I have always paid good prices. It is not necessary to ship your collection to the New York market. I can and will pay prices that will compete with any dealer. I travel to buy and on worthwhile properties will come personally to inspect.

I am interested in large general collections; United States collections, Air Mails, British Colonies, Proofs, Covers, in fact, anything in stamps including dealer's stocks. If you have anything in the stamp line for sale, write me. While I especially seek large, well made and important collections, I will also buy gladly small lots of duplicates and collections worth \$50.00 or more. \$25,000.00 or more in cash immediately available.

TRADE-IN OFFER

We all know the most inexpensive method to build up a BASIC Collection of any one country or group of countries is to buy a large packet of all different stamps of that country or countries.

BUT, while this is all well and good when a collection is about to be formed, it's not so good if you already have a sizeable collection of that country, for it means too many duplicates.

That's where this TRADE-IN offer comes in—you can now buy stamps of your favorite countries the cheapest way (packets) and at the same time have no worries about duplicates.

Here's the way it works: Suppose, for example, you have 150 different Uruguay, and would like to increase this to 200 different. Just send us your 150 different as a "trade-in" toward a 200 different packet. You will be allowed full price on the trade-in, i.e. \$1.50 toward the 200 different at \$4.50. You would then remit the difference of \$3 in cash.

OR—you can work this without actually sending in your stamps. For instance, suppose you already have 300 different Uruguay, and would like to increase this to 400 different. 300 different lists here for \$8.50; and 400 different for \$20. You simply remit the difference of \$11.50 and get the 100 better stamps in the larger packet, stamps which aren't in the 300 different packet. Of course, we can't guarantee that in every case this will result in 100% non-duplicate of items already in your collection but the odds are all in favor that the percentage of duplicates will either be very small or nil, and you save money in the bargain!

URUGUAY
100 Diff. \$.85 150 Diff. \$1.50
200 Diff. 4.50 300 Diff. 8.50
400 Diff. 20.00 500 Diff. 70.00

Last week we listed Paraguay. Week before it was Mexico.

BUT WHY WAIT until your favorite countries are listed? Write to us NOW, telling what YOUR favorite countries are, and how many different stamps you already have of these countries. We'll send you TRADE-IN quotations you're sure to like.

East Setauket

On the north shore of Long Island, the sometimes called 49th state, between Port Jefferson and Stony Brook. A lovely place I am told with a population of about 2000 normally and a mid summer population that sometimes doubles that figure. Quite a retreat for Artists and Writers who want to get away from the hustle and bustle of the Big Town, yet not too far away for their frequent necessary trips. Mr. Frank Baker who showed me a couple East Setauket precancels also informs me that they have a Stamp club up there. Its called the North Shore Stamp Club and a fine group of enthusiastic collectors are behind it. Meetings are held the 2nd and 4th Mondays of each month. Collectors living on Long Island and interested in Philately should get in touch with Mr. Baker at East Setauket for further details. The Precancels were the 1/2c President and 1c Defense in the conventional U-121 type. The club mentioned above is not a Precancel Club but a regular Stamp Club.

Twenty-One Years at Auctions...

Hoover Bros. started their famous auctions in January 1925. Since then they have conducted 218 auctions. Quite a record we would say. With their latest auction list, which by the way was mailed from Boston with a couple of 1/2c Wide Presidential Bureaus, was another supplement to the Bureau Catalog. These supplements are FREE to any collector interested in Bureau Prints. Of course they will do you little good unless you have the current

Grand Rapids.

It is peculiar how some cities at certain periods use precancels prolifically then seemingly for no reason at all cease to use them or nearly so. Grand Rapids Mich. in times past say between 1925 to 1935 used great quantities of precancels in all denomination up to and including the 50c values and quite some dollar values were precancelled too. Many of these precancels were in double line types of which two different plates were used. Before the double lines the U-3 type was used for a good many years. One of the Double Line plates became broken and was repaired with a part of the old U-3 plate to make some very interesting vertical pairs. Outside of these combination vertical pairs no Grand Rapids precancel was very scarce even the odd values such as the 13, 14, 17 and 25c values were as common as from any city. Then came the Presidentials and a new U-17 type. Some few values were

From the above list, the Laurel issue, October 14, 1944 (issued on January 12, 1945, as reported in this column before) was not mentioned. Perhaps it was omitted inadvertently by the Statistics Committee. Postal stationery such as embossed stamped envelopes and postal cards were not mentioned likewise.

Take It or Leave It

With the above initial findings of the Statistics Committee in question, it's up to collectors and all concerned, to evaluate the facts, figures, fancies & fiction on the stamps of the Jap occupation. Reiteratingly, and as reported in this column before, here in the Philippines everybody is entitled to his own opinion and enjoys the Four Freedoms, and can therefore smoke his pipe even upside down.

will not be surprised to learn of this latest announcement.

Through its philatelic department the airline has made arrangements to service covers for the first flight of American Over-Norway, Sweden and Denmark to take place during the early part of February. The flight will leave La Guardia Field, New York, and mail stops will be made at Oslo, Norway; Stockholm, Sweden; and Copenhagen, Denmark. The exact date of departure is indefinite.

Service on the foreign legs of this flight, because of the time element, may be impractical from the standpoint of the collector. Therefore, American Airlines has set up a special Philatelic Division at 100 E. 42nd Street, New York 17, N. Y., which will handle their requests. Collectors may send their own covers or accept those that have been designed by the airline for this first flight, showing a modern Douglas plane above the world of today.

Attention of our readers is called particularly to the fact that no cash or stamps should be sent for covers. Checks or money orders are acceptable and should be made out to American Airlines System. Because the established prices for these covers have been set at such a bare minimum over the actual cost of postage and the service is offered as a consideration for collectors, we are glad to employ our news columns in listing them for the further convenience of those wishing to obtain these first flight covers:

John W. Nicklin Will
Manage Sanabria Bus.

The Sanabria Catalogue and Business in Airpost Stamps is to be Continued notwithstanding the Tragical Loss of Nicolas Sanabria, Founder of the Firm.

Collectors of and dealers in airpost stamps throughout the United States and abroad, will be glad to learn that John W. Nicklin, pioneer in aerophilately, has been retained to direct the affairs of America's leading airpost firm, Nicolas Sanabria, Inc. All present Sanabria activities will be continued with undiminished energy and along the lines laid down by the founder of the firm. The 1946 edition of the famous Sanabria Airpost Catalogue will be published according to schedule during January. A monumental volume of more than 1100 pages, the Sanabria catalogue has become essential to all airpost stamp collectors, and it can be definitely stated that it will be published annually in the future as heretofore. Sanabria Auction Sales, New Issue Service and general business in mint airpost stamps will also be continued and expanded.

John W. Nicklin has been closely associated with aerophilately since the early days of the specialty. While with the Scott Stamp and Coin Co. circa 1926, he purchased the fabulous Morgan lot of Honduras airmails including all know copies of that now \$10,000 rarity, the 5c blue with red overprint. Subsequently, he published airpost catalogues, albums and other philatelic works including the well received "Fabulous Stamps."

For the past years, he has been closely associated with Nicolas Sanabria in the editing of the Sanabria Airpost Catalogue and the Sanabria Airpost News. Thus continuity of editorial policy in these publications is assured and aerophilatelists everywhere can

Airlines Becoming Collector Conscious; Covers Are Offered

What amounts to free advertising is given in this story solely because we believe that there will be a lot of our readers who will appreciate the opportunity we are offering them to obtain covers carried in the first flight of the American Airlines System to and from London, England.

We could not of course, offer this opportunity were it not for the fact that the American Airlines System have become conscious of the widespread interest of stamp collectors in covers of this nature and thus provided a supply for the collectors.

The date of the flight was not announced due to war restrictions, thus few collector covers were carried from individuals. This is known as FAM 24 and is the first flight New York to London and return.

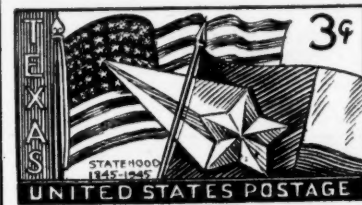

The American Airlines System sent through a quantity of covers, from various points and now offer them to collectors at a nominal price. For the benefit of our readers who are interested we are printing the entire list of covers offered with prices and with the information that orders for any of the covers may be addressed to American Airlines System, Philatelic Division, 100 E. 42nd., St., New York 17, N. Y.

Following is the list of available covers and prices. A discount of 10% is allowed on orders of \$20.00 or more. Remittance by Money order or check.

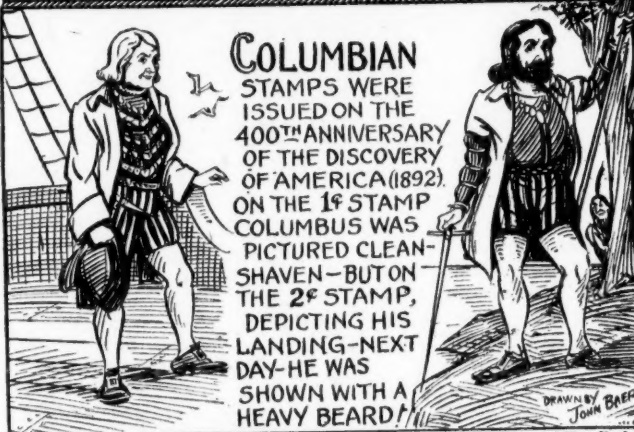

In ordering be sure to mention Linn's Weekly Stamp News. If you help make the Airlines conscious of the Philatelic press, more and better service can be looked for in future operations.

STAMPS USED FOR CONFETTI AT MAINE WEDDING

Up in Maine, when David G. Hempstead married Margaret Burrill on New Years Day in Bangor, confetti was prepared by cutting several thousand Famous American stamps into nine pieces each. The father of David Hempstead had been preparing this confetti by cutting the stamps ever since his son had become engaged. To Miss Burrill. It is stated that the stamps were all poor copies and of little philatelic value. Nevertheless rather high priced confetti.

STATE REVENUEER

418 Twelfth St. Santa Monica, Calif.

FLORIDA—A great surprise to me, as it will be to many, is the 12c green Scarborough paper stamp which recently came to me. Same design, etc., as the 1 1/2c paper stamp.

The 15c blue and black Scarborough decal has been added to my collection in Type III (No line around "State of Florida." Single leaf at base of values. Cream safety card.)

MAINE—George Cabot sends a Liquor Control Label which is new to me. It is almost exactly like the other engraved decal, but the seal is now much smaller and superimposed on a map of Maine. "American Bank Note Company" imprint, as before.

MINNESOTA—New minor varieties of the first set of "Peterson" Liquor Decals are at hand: 2c red violet and pale blue; 3 3/4c pale carmine on dingle rose; 6c reddish purple on yellow with red serial numbers; 7 1/2c with light green serial numbers; and 20c red violet with red serial numbers.

MISSISSIPPI—The 48c Beer and Wine Tax stamp has appeared up to and including serial letter "W". The 64c stamp has appeared in "G" violet.

NEW MEXICO—I now have the 5c red Wine stamp in the lately issued design (Value in circles at lower corners). On yellow safety card, black rouletted 9/16.

UNUSED, NOT USED

Readers who ordered from the advertisement of Hurt & Fosse in the January 10 issue of this paper without checking prices and expecting used U. S. stamps are in for a surprise.

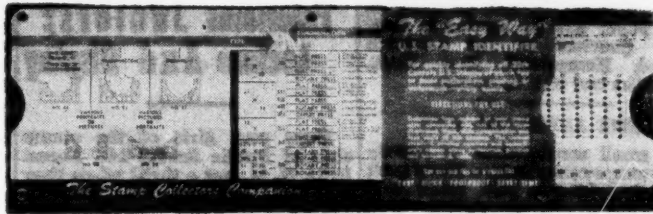

The heading on the advt. should have read UNUSED U. S. instead of USED. We are rerunning the advertisement in this issue with the correct heading.

DID YOU KNOW ..

that stamps bring very high prices on the current market? We are willing and able to follow this trend and are prepared to pay cash prices for stamps whether they are in the form of a highly specialized collection or just "dumped" into a shoe box. We are also interested in better grade mint and used U.S. Postage and Revenues, Singles, Blocks and Sheets. Drop us a line and let us know what you have to offer, won't you?

The "Easy Way" U. S. Stamp Identifier

For quick identification of stamps, this Easy War Gadget is really better than a catalogue. It tells you at a glance just what is what in United States stamps in all instances where there is more than one variety of a similar stamp design. This gadget is for 20th Century U. S. Issues only and serves a purpose that makes sorting and classification and identification a very simple matter.

Unless your own stamp study has been to such an extent that you have all the knowledge in your head, this little gadget tells you at a glance just how many different varieties there are of any single stamp. It tells you whether they are flat plate or rotary prints, tells you what the perforation must be of each kind and tells you other things that make stamp identification a much more simple matter. Of course, all this is in the Scott Catalogue, but it is found in much more condensed and simpler form in this little Gadget that is beautifully made and destined to be one of the most important Philatelic Inventions ever produced. No collector who handles many stamps in an attempt to classify and study them will ever think of being without this Easy Way Stamp Identifier once he has seen it and studied its process of operation which is simplicity itself.

Philately will long owe a debt to Chas. B. Charnatz the Air Mail Stamp Dealer of Royal Oak, Mich., for his effort in producing this gadget. It is being offered by Mr. Charnatz and is available to all stamp dealers on wholesale terms and ought to be about the biggest seller in Philatelic supplies ever put on the market. The price is one dollar and well worth it to any real collector.

Truman Pays Tribute In Stamp Collecting

I am happy for this opportunity to extend my greetings to the thousands of stamp collectors throughout the world and commend them for the real contribution they have made, and are making, to the fostering of good will and neighborliness among all the peoples of the world. As improved methods of communication and transportation have brought the peoples of the world closer together, so the hobby of stamp collecting has made its contribution to what the late President Roosevelt so aptly called the "science of human relationships." Through the medium of the simple postage stamp, American stamp collectors have toured the world and peoples from far-off places have acquired a better understanding of our country. The hobby of stamp collecting is one example of the ability of peoples of all nations to live, work and play together in the same world at peace.

Our late President was this country's number one stamp collector. It is difficult to estimate

what part of his hobby of stamp collecting from boyhood played in the shaping of his international views but we know that as a stamp collector he constantly dealt with and considered the peoples of the entire world. The Franklin D. Roosevelt Stamp Collection is tangible evidence of the international consciousness of a great leader.

—Harry S. Truman

BECHUANALAND PEACE STAMPS

We have received from James Mildenhall & Co., Philatelic Auctioneers of 17 Rissik Street, Johannesburg, South Africa, a first day cover of the new Peace Stamps from Bechuanaland. These stamps are the three bilingual stamps issued by South Africa and bear the surcharged name of "Bechuanaland" in heavy black face letters across the name of "South Africa" on the original stamps. We illustrated the three South African stamps in our issue of January 3rd. First day for the Bechuanaland stamps is December 3 1945.

IF YOU GO TO FLORIDA

Henry Perlsh, precancel dealer and secretary of the Collectors Club of Miami Beach, Florida, advises us that the club holds meetings every Wednesday evening at Number one, Lincoln Road, and that a cordial invitation is extended to all collectors who may visit in Florida during the present season.
